

Rockledge Golf Club:

Classic course sets standard for modern excellence

meander through the course along with small ponds that cause golfers much anxiety.

Many notable golfers have come to Rockledge. Two-time U.S. Open champion Julius Boros often played there, and another Open winner, Tommy Armour, once served as head professional.

The course features a variety of challenges, from the long and demanding par-4 3rd hole to the uphill par-3 8th with its tricky two-tiered green.

In recent years, Rockledge has worked to maintain the playability of the course in light of advances in equipment technology. New and improved bunkers, longer tee placements and a modern drainage system are among the many major improvements introduced.

Rockledge takes advance tee times by phone or online, and also allows the remaining 20 percent for walk-ons. An adjacent 28-bay practice range allows golfers to hit full driver and warm up for their rounds.

Rockledge Golf Club in West Hartford is a course that embodies golf tradition, from the classic layout design to the legends who have played and worked there throughout its rich history.

Yet, while traditionalism remains a hallmark, time has never stood still at Rockledge. The course has developed a modern approach that focuses on personal attention, customer service and adopting changes that recognize how the game of golf has evolved in recent years.

“History is important here at Rockledge,” says longtime head professional Richard Crowe. “But we also recognize how the game of golf is changing and also how the customer is changing. We’ve worked hard to maintain a high standard of excellence while addressing their new needs.”

Built in 1924 and later expanded, Rockledge has an old-course feel. Holes generally run adjacent to each other and are separated by lines of mature trees and rough, while numerous creeks, streams and brooks
